

Envision Counselling & Support Centre Inc. Year in Review

Happy Holidays to all, as we wish you a peaceful break during the Christmas season. At Envision Counselling and Support Centre, we're reflecting on the past year and the transitions experienced as an organization.

Sadly, the 24-Hour Sexual Assault/ Abuse Support Line was discontinued, ending a long chapter of community service to those in crisis, at any time of the day or night. We encourage anyone in need to call the provincial 211 line.

At the same time, Envision took on a public role in hosting a fundraiser in Estevan, partnering with community members for Savour the Southeast.

The much needed financial support helped to cover our budget shortfalls in counselling and support positions as well as stabilize our Oxbow operation.

Envision continues to offer therapeutic counselling to individuals and families experiencing violence. We have counselling programs for couples, adult survivors of abuse, and children. Our family support program offers help right in the home throughout the Southeast.

We're gearing up for a thrilling 2019, our Silver Anniversary year. Envision will celebrate 25 years of healing and support in the Southeast.

We have seen thousands of clients in the past quarter century, and 2019 is for them. Please stay tuned to learn more about our 25th Anniversary celebration.

From the Executive Director team of Christa Daku and Lynda Rideout, as well as the Staff, Board, and Volunteers of Envision, we wish you contentment this holiday season.
