Real Life Impacts in Our Communities

"My life has changed for the better after having been in the Women's Empowerment class with Envision. It's taught me so many things about living in the moment, not living in the past. The facilitators made me feel accepted and part of the group instantly. The ladies who were a part of the group with me connected so well. This was truly meant for me. All women should do something like this just once in her lifetime. We all need a boost and to feel empowered by others!"
