

## Recognizing Hard Work Tonight at Envision A.G.M

A great community organization will be celebrating their staff during Tuesday night's annual general meeting.

Envision Counselling & Support Centre provides assistance to families throughout southeast Saskatchewan. Tonight's meeting will highlight the people who make their organization such a valuable asset to the people in the community.

"It's really a time to recognize our staff and the hard work that they do day in and day out," explains Lynda Rideout, Executive Director. "It's also a chance to see where we can improve heading into the next year."

Other items on the agenda include going through various annual reports and the audited financial statement.

"Since we're a non-profit, we're required by the government to go through that audit every year," adds Rideout. "That's why we typically have our A.G.M. in June so we can go through what we've done in the year and know where we stand heading into next year."

Envision has three locations (Estevan, Weyburn, Carlyle) in the southeast. More details can be found on their [WEBSITE](#).
