

Envision Counselling Launches Needs Assessment in the Southeast FOR IMMEDIATE RELEASE

Southeast Saskatchewan – Envision Counselling and Support Centre is working to understand what type of services are needed throughout Southeast Saskatchewan. As part of their strategic plan, Envision is launching a Needs Assessment focusing on their geographical area which covers a large portion of the Southeast corner of the province. A needs assessment is a way to understand needs or gaps in services in the current programming of an organization or addressing areas where new services could be beneficial.

“This assessment will provide the necessary data on whether or not the programs and services being delivered by Envision are meeting the needs of the communities in which we serve,” says Christa Daku, Executive Director of Envision Counselling and Support Centre. “The needs assessment is also a great opportunity for Envision to compare the new data to previous assessments in order to see how our communities have grown and how Envision can support that growth.” The last assessment in the area was in 2007.

In order to gather data for this assessment, Envision Counselling will hold focus groups within the communities it serves as well as create an online survey. “The more people that we can get to take our survey, the better understanding we will have of the barriers they are facing with regard to service delivery,” says Daku. Envision is encouraging all Southeast residents to take part in the short online survey, it is available at www.surveymonkey.com/r/envision2018na or it can be found on Envision’s website.

Envision Counselling and Support Centre provides innovative programming and diverse counselling and support services to individuals, couples and families. Counselling services are available for those experiencing instances such as intimate partner violence. Individuals looking for more information can find it on Envision’s website at www.envisioncounsellingcentre.com.
